‘BECOMING‘

September 1 - September 30, 2024

Opening Reception: Thursday September 5, 6pm - 9pm

Blanka Morikawa (b. 1988) is an abstract painter based in Prague. She's been creating for about 4 years now and is proud and blessed to have her art represented in private collections here in Czech Republic, as well as other parts of the world. In her practice Morikawa uses acrylic paint and charcoal to explore and express her inner-most feelings and thoughts. She focuses on freedom of expression—allowing her intuition to drive each piece and each mark. Surrendering control and freeing herself from any form of expectation—internal or external.

Exciting and full of life, this series captures a process of awakening to one's true power and potential. A becoming of who one's meant to be. In these works, Morikawa explores her longing for realness, depth and a feeling of being fully alive, in alignment with one's core. Through use of colours and intuitive expressive marks she creates her own unique language, as she tries to translate pieces of her inner truth into the physical realm.
